The Stock market to-day exhibits a marked renewal of activity, and a more buoyant feeling rather sustaining on I en of yest-rday that the market was made purposely heavy by the parties interested in the rise moince short sales on the part of the bears. There was some resistance to-day to the upward tendency of the parket, but the quotations at the close show generally some improvement on yesterday. There was a letter demand for buyers' options than has been not center some time past, which indicates that the the The market opened strong for Novernmen scartiles, with a fair inquiry. The features of the street to-day is the rush to sub scribe for the 7-30 & cent Treasury Notes at the Sab-Treasury. The applications were very numerous, in some cases for large amounts, and Mr. Cisco and his clerks were kept constantly employed up to a late hour in receiving and counting gold, signing certificates, &c. The application by mail are very heavy, and include some from Virginia. The aggregate amount received to-day is \$1,037,500, which is largely in excess of any previous day. Thus far this week the amount adds up about \$2,500,000. At this rate of absorbtion the Banks will feel abundantly able to take the second any millions. Among the subscriptions to-day was one

for \$100,000 by the New-York Life and Trust Co., \$50,000 by a South street house, &c.

The inquiry for six per cent Treasury Notes is active, and large sales have been made at 98, 2081. The Demand Notes of small denominations are also wanted by the public and the Sub-Treasurer is unable to keep any on hand. An order for \$5,000 from Massachusetts was received to-day. Some of the banks here are receiving these notes on deposit and in payment of bills receivable, but others are refusing them, by which course they accomplish nothing but to stultify themselves.

Another draft for over a million of dollars has been received by the Sut-Treasurer to be paid over to the banks for sales of Treasury Notes made by Mr. Cisco to the public. This will make nearly three millions of the bank loan reimbursed.

The business of the Clearing House was \$17,762,000. The statistics of Exports of Produce printed vesterday were for two weeks, and not for two months as

The Money market is without material change for call loans, but shows some improvement in all other negotiations, and first-class six-months' acceptances may be quoted at 61 28 P cent P annum. This advance may be attributed to the general favor with which the 7 3-10 Treasury Notes are received in all circles, and the general revival of business in all depart-Holders of Bonds of the Obio and Pennsylvania

Railroad Company, of the Ohio and Indiana Railroad Company, of the Fort Wayne and Chicago Railroad Company, of the various classes, and of the Pittsburg, Fort Wayne and Chicago Railroad Company, who have subscribed the agreement of reorganization, are required without delay to deposit their bonds with John Forguson, Trustee, No. 35 Pine street, New-York City, in conformity to said agreement. Holders of any of the above bonds who have not subscribed to the said agreement, are notified to do so without further delay. The sale of the said railroad will take place on the 24th of October, 1861, and all persons omitting to subscribe the agreement for reorganization, or emitting to deposit their bonds in season for the use of the purchasing agents at the sale, will be liable to be excluded from participating in the purchase. The reorganization of this road is effected under special ensements of the State Legislatures of Pennsylvania, Ohio. Indiana, and Illinois, and is on terms generally satisfactory to all the different classes of bond and stockholders. Under its clauses the road is to be at once sold out to Samuel J. Tilden, John Edgar Thompson, J. F. D. Lanier, Samuel Hanna, and L. H. Meyer; and the old Obio and Pennsylvania Railroad, the Ohio and Indiana Reilroad, and the Fort Wayne and Chicago Railroad first mortgage bonds and accraed interest become merged in a new issue of \$5,250,000 7 & cent sinking fund bonds, secured by a first mortgage over the whole read-equal to about \$11,000 per mile. A second mortgage of like amount secures bonds to be awarded to the holders of the present second mortgage bonds of the old companies and a third mortgage of \$2,000,000 will secure the interest on bonds to be given to the holders of the old real estate bonds and other classes of old indebtedness. The interest on the bonds to be issued under this third mortgage will only be paid in case the earnings of the road prove sufficient for the interest and sinking fund for the first and second issues. Stock for \$6,000,000 will only draw 6 P cent dividend, the balance of the net earnings going to

redeem the first issue of bonds.

At Boston, the subscriptions to the National loan are At Chicago, on Monday, there was a better supply of Eastern exchange, and the market was weaker.

The sales were generally at par on the street, and at the banks 1 w | V cent prem .- principally at the inside quotation. Currency in good demand, and the supply is scarcely

equal to the requirements of the produce trade. There was a good demand for Treasury Notes at 98c.; but the supply comparatively light.

The St. Louis Democrat says: The money market has been very quiet and inactive during the entire week. Sight exchange on New-York was a shade lower, being 52 26 4 cent premium for Missouri money. Gold was also lower than the ruling rates for the past week, and closed at 6 at 6 to cent premium, against 7 at 7 yesterday. Treasury Notes are in demand, and bankers are buying all they Notes are in demand, and cankers are daying all they can get at 97½ for gold and 1022003 for bankable funds. Not many holders, however, are disposed to part with Treasury Notes at the above figures for bankable funds, and the reason is obvious. There is a bankable funds, and the reason is obvious. There is a good deal of speculation as to the final "come out" of the fix Missouri money has got into. We were furnished a list by a responsible party, of come eight persons who are prominent owners of stock in a certain bank in this State, who are now actively engaged graing aid and comfort to treason, and one or two of them actually in the Rebel army.

The activity in the Dry Goods trade for the week has been chiefly confined to the jobbers, the package houses not being so actively engaged as previously reported. Those houses which have survived the panio and are able to present new and attractive assortments were never making, in the aggregate, larger sales, and were never doing a more safe and profitable business. Making a large per centage, they meet the advancing tendency of prices with spirit, which strengthens holders and imparts an improved tone to the general mar-ket. The export trade has been moderate but satisfactory, although the clearances are reported as only 400 bales, including 360 to China. The cotton mills some sections are starting up on short time, working up their stocks of cotton, which will give us, in a few weeks, a fresh supply of goods, for a time at least, which will invigorate trade, as the stocks at present are so small of desirable styles our jobbers cannot sup-ply their orders. Other manufacturers are supplying our market with shipments of cotton from their mills preferring to meet a roady sale of the raw material rather than to work the staple on such a basis. We report no change in the general market for Cotton Goods. Brown Sheetings maintain previous prices. Drills are without change. Printing Cloths have not advanced as rapidly as expected by the most sanguine, but are held with great firmness. The sales at Providence for the week have been large, and are as follows:

Total No. of pieces 77,000

The Woolen mills are actively engaged on Government orders, and the prices of every fabric which can be substituted for the regulation goods are advancing. Those mills whose contracts for army goods expire the 1st prox. are receiving duplicate orders at an advance of 10 to 15 \$ cent over previous prices. The Fancy Cassimere makers find ready sale for all desirable style of goods at full prices, and the old stocks, which at one

facturers did not possess the skill of European manufacturers. This idea has been somewhat exploded in the introduction of fine goods from a small number of factories, which have produced goods equaling in finish, beauty of design, and texture, any goods ever imported; and we are happy to learn that it has given a new impulse in that department, which has resulted in reason. The Commissioners failed to establish a grade the organization of new corporations, whose object at the time of the opening of the street, but it has been will be to supply the country with many of those | ascertained that the proper grade would necessitate woolen fabries which have hitherto proved so indispensable. A new era in the woolen business will be inaugurated, and it will take its proper position by the side of the more successful branches of American industry, and will prove, it is supposed, more remunerative than the Cotton manufacture, which employs so many thousands of our population. The sales of Foreign goods at auction have been large during the week, but prices have not been maintained. The French importers have a great want of confidence in the few remaining houses, and not being willing to keep up their rates direct, have sent their goods to the auction-houses, who are more liberal in their credits. This has resulted in a great decline in previously current prices, and the losser resulting have been large, ranging from 20 to 30 per cent below the cost of importation. The importers of British goods are doing a moderate business in the regular way, at satisfactory prices, for all their recent importations, and will be able to dispose of their general stocks during the season. New Saxony Dress goods are in good demand and yielding good profits. Fancy German and French Cassimeres and Contings, heavy Beaver Cloths, and Military styles have been doing well: but for the most part stocks are exhausted. Importations continue to fall off, and will not be resumed with the came volume as heretofore for a long period.

BROOKLYN ITEMS.

Died, at his residence, No. 282 Degraw street, South Brooklyn, Robert Balmanno, in the 81st year of his age. Mr. Balmanno was of an ancient Scottish family near Forres, in Aberdeenshire, and has long been favorably known for integrity in business, and enthuissm in connection with Shakspearies matters.

A FERRY-BOAT FOR WASHINGTON,-The agents of the United States Government on Wednesday purchased the Union Ferry-boat Wyandank, to be delivered at Washington within the shortest possible time. Some necessary alterations were speedily made, and she started on Thursday, under command of a coast-pilot in the employment of the Government. Eleven of the ferry hands went with the vessel-of these two are engineers and two pilots.

The "Banner Republican Cub of the City of Brook lyn" have organized for the coming year; the officers are as follows: The Hon. H. B. Duryea, President; S. M. Griswold, 1st Vice-President; J. Oakly Nodyne, 2d Vice-President; T. G. Sherman, Secretary; L. W. Roberts, Treasurer.

THE NAVAL CADETSHIP .- Some time since the Hon. M. F. Odell made a proposition to the Board of Edutime were so unsalable, are fast passing away. The Woolen manufacture in this country has never assumed its due proportions, as compared with other branches of manufacture. It has been too much confined to a low style of goods. No taste or beauty of design entering into their fabrication, they have held no competition with the foreign fabrics, which enter so largely into our general consumption, and from this fact it has been generally understood that our manufacture where the selection should be made. The Committee have the document of a candidate from this the selection should be made. The Committee have the adjourned to meeting, but not having yet come to a decision adjourned to meet again. A certain number will probably be selected from each school, and the one who proves himself best qualified will doubtless gain the prize.

CITY ITEMS.

CHAMBERS-STREET EXTENSION,-There is much complaint that nothing is being done toward regulating and grading the extension of Chambers street. The statement of a few facts will, perhaps, explain the alterations at the intersection of cross streets as follows: William street would be cut down (at intersection) 3 feet: Pearl street 2! feet; Roosevelt street intersection would require 5 feet filling; Batavia street 11 feet, and James slip 2; feet. Now, the act of the Legislature, passed March 4, 1832, contains the follow-

Ing clause:

"It shall not be lawful for the Common Council to alter or change, in whole or in part, the grade of any street or avenue in said city now established, erwhich may horeafter be established, except upon the written consent of the owners of at least two-thirds of the land in lineal feet freeting on each side of the street or avenue opposite to and adjoining that part thereof, the grade of which is to be changed or altered."

But the consent of the owners of two-thirds of the change of the street of the consent of the owners of two-thirds of the

land in lineal feet on the cross streets affected by the

proposed change of grade cannot be obtained, therefore

nothing is done. The only course left seems to be to

grade Chambers street to accommodate the grade of

the cross streets, instead of making them conform to it.

Seen a proposition, it is understood, is before the Board of Aldermen. Certainly steps should be taken to give owners of property such possession as will enable them to realize something with which to pay the TREASURY NOTES IN DEMAND,-Geo. B. Clemens was arrested by detective Geo. Nevin of the Second Precinct, and taken before Justice Kelly at the Tombs Poller Courton Thursday morning, on a charge of defrauding Mesers, Livermore, Clews & Mason, bankers, No. 41 Wall street, of five \$500 Treasury Notes by paying to them a worthless check on the Bank of Jersey City. It appeared that Clemens called at the bankinghouse of Livermore, Clews & Mason on the 2d inst.,

on which occasion be exhibited the check, and next day

cailed again and presented the check, purporting to

have been certified by the paying teller of the Bank of

GHARITIES AND CORRECTIONS .- At the seminonthly meeting of this Board yesterday, Mr. Grinnell presided. From the report of the Committee of the Whole, it appears that from the 30th of August to the 12th inst., 687 persons were sent from the City Prison to the Work-House. The Warden of Bellevue Hospital was instructed hereafter to render bills for the treatment of all persons injured on city railroads and sent to that institution to the Railroad Companies on

whose lines such accidents occurred.

The following is the reply of the Commission to the Supervisors in reference to reduction of expenses:

The Hon. Swith Etv. Ja., Chairman. Sin: in answer to your inquiries, under date of the 4th inst., have the hoor to state:

1. That no changes have taken piece in the organization, plans, or work of the Bepartment, of any material importance and no reduction can be anticipated worthy of note in our proposed ex-

penditure.

2. No suggestions are at present apparent which will allow of 2. No suggestions are at present apparent which will allow of reduced estimates.

3. We have long since arrested all expenditures that could possibly be postponed, and know of none which may be properly confitted or postponed in addition to those already acted on.

4. This Department will, we fear and believe, require an additional expenditure the coming year. Yet we hope to show increased effort throughout the organization to economize in every way possible. With great respect, your obedient servant, SIMEON DRAPER, President.

9. S.—The astimates for this Department for the year 1861 were 476,004 less than the preceding year.

The President and Secretary were directed to draw \$50,000 from the appropriation for this department.

The receipts from 30th August to September 12, amounted to \$2,6476.

James Sandford and Mathew Murphy were also elected

HISTORY OF A DIAMOND EARRING .- Florence McKinney appeared before Justice Brennan, at the Essex Market Pelice Court, on Wednesday, and made a complaint against Jane Ertzberger, for having stolen a diamond earring. It appeared that William Lang, the grandson of Jane Ertzberger, found a diamond earring on the front stoop of Mrs. McKinney's house, No. 64 East Thirty-second street, some seven weeks since, and immediately took it to his grandmother, who a

poor, she needed victuals; so she took the ring to Mr.
Parker, who gave her \$20 for it, that sum having been received by her in installments. She admitted that the boy had told her where he found the ring. Parker, who keeps a cigar store in Third avenue, represented that he had sold the ring to a man in Washington, who had it made into a breastpin. The boy who found the ring had frequently expressed his anxiety to take the ring had gone. Mrs. McKinney, but was prevented doing so, as the ring had gone. Mrs. Ertzterger and Cornellus Parker were committed for examination.

BOARD OF SUPERVISORS.—The Board of Supervisors met on Weinesday, the President, Mr. Stewart, in the chair. A communication from the Commissioners of Police was received, stating that the appropriation of \$30,257 for brilding a House of Detention for witnesses had been expended, and that there remained a balance of \$191 36 unpaid. The contract for mason work amounted to \$15,370; carpenter work, \$7,397; architect and superintendent of building, \$1,333 64; plambing and gas-fitting, \$3,166 36. The Board instructed Commissioners to pay the balance.

The report of the Committee on the tax levy was laid over, and ordered to be printed. It takes the ground that in the levy the Board can take advantage of the contradiction and implied discretion conceded under the terms of the act. A reduction of some of the larger appropriations is therefore recommended, where the Omession of amounts can be based on the neglect of the Common Council to give out contracts, or where the Departments have allowed balances to accumulate, and the appropriations can be dispensed with without detriment to the public business. The appropriation for deficiences in taxes to make up for remissions, &c., having been reduced in an amended ordinance by the Common Council, is cartailed accordingly from \$160,000 to \$4,000, making a reduction of \$156,600. The amount withheld by the Controller from the street-cleaning contractors, supposed to be more than \$50,000, at least, for non-performance of contract, is also cut out. The appropriations for new fire engine and police station houses to the amount of \$50,000, it is assumed can be postponed, also \$100,000 from the appropriation for come raction and repair of police buildings. The appropriations for new fire engine and police station houses to the amount of \$50,000, it is assumed can be postponed, also \$100,000 from the appropriation for wharves, piers and ships having remained to a large extent unused thus far, as the Common Council have gave not but little work under it, it is curtailed \$75,000, that the poor man's cart or back, an increase especially in the amount of city railcoad license, &c. The civil courts and markets should at least sustain themselves by their fees and rents, and the outlay for the con-struction of piers and docks should come within the limit of the rents and receipts from these source. The gradual release of the city revenues from the sinking fund is represented as the only hope for a reduction of taxes. A number of communications from the heads of departments accompanied the report.

ROBED HIS MOTHER.—On Wednesday, Justice Compolly committed Edward Kolb, a reckless youth of Connolly committed Edward Kolb, a reckiess youth of 18 years, who had been arrested charged with stealing \$40, belonging to his mother, Margaret Kolb, of No. 97 Grand street. Edward had gone on a spree and spent all the money but \$11.

FIREMEN'S RIOT .- On Wednesday evening a false FIREMEN'S RIOT.—On Wednesday evening a false of same of are in the Seventh District, brought to the corter of Fulton and William streets, a number of companies, who by some means got into a quarrel, in the course of which cart rougs, wronches, trones, and other dangerous weapons were freely used. Several of the men were seriously wounded. One man was taken to the New York Haspital with his nose graded and has head considerably injured. It is understood that some of the Breadway police looked on the fight without attempting to interfere. The Police Commissioners are investigating the case.

HE DROVE A FAST HORSE.-Francis A. Reihors. HE DROVE A FAST HORSE.—Francis A. Reibors, being on a spree yesterday afternoon, and feeling in the I more for a ride, jumped into a wagon which he found standing on the atrest opposite the Bank of Commerce, and drove off at great speed through the streets, knowing no atoping place until an obstinate lamp-post, which refused to give way, upset the vehicle, and threw out the fast rider. Soon after the wagon had been taken away, John W. Stavena, etc., of No. 199 West Fifteenth atreet, who had left it to transact some little business, returned, and found it gone. The horse and wagon were worth, before the accident, \$200. The thief was arrested by Officer McLaughlin of the First Ward, and taken before justice kelly, who committed him for examination, till be gets sober.

COMMITTED FOR STEALING GAS.—Frederick Islands is a Gorman, and keeps a store at No. 200 Avence A, and has for a long time used and poid for the gas manufactured and served out by the Manhattan tiss Company. But, for some reason not given to the world at large, he failed to pay one gas bill about his beginning of July, and, on the lith of that mouth the Company had his gas cut off, and the meter removed. Mr. Buch thereupon determined not to tolerate any such summary action on the part of any gas light company, and he at once pierced the main, and recatablished the order of enlightenment in his piace of business; whereupon Officer Anderson of the Third District Police Court was instructed to arrest him, and yesterday Justice Eusenbury committed him to answer.

A PENITERY TRIEF.—Yesterday Robert Thompson was taken before Justice Kelly, at the Tombs Police Court, obarged with having stolen two pieces of lines valued at \$42, from his employer, James C. M. Paton, No. 341 Broadway. Mr. Paton alleged that during the past year at least \$41,000 worth of poods of various kinds had been taken from his store, and he had reason for suspecting the prisoner. Thompson is 77 years of age, and has been several years employed by Mr. Paton, as elerk. He confessed his guilt, and appeared to be very sorry for having paced himself in such a shameful position. He was held for trial.

LAW INTELLIGENCE.

UNITED STATES MARSHAL'S OFFICE-SEPT. 12 .-A SPORTING MAN ARRESTED ON A CHARGE OF TREASON.

Marcus Cicero Stanley, a well-known sporting character, and a North Carolinian by birth, but has been for some years a resident of this city, cers on a charge of treason. The officer took Stanley into custody, in Crook & Duf's salcon, and went with him to the Marshal's office. Stanley protested that he was entirely innocent, and averred that he had always been a strong Union man. He wanted to know what was to be done with him. The officer replied that his orders were to take him to Fort Lafayette. It is understood that Stanley is charged with enticing enlisted soldiers from the service, and endeavoring to prevent others from enlisting. The accused was permitted to send a dispatch to George Wilkes in Washington, informing him of his situation, and a letter to his wife, inclosing \$100 to her. Stanley says that the whole proceeding was the result of the enmity of Billy Mulligan and his friends against him. Within an hour after his arrest, he was on his way to Fort La-

In the afternoon, Mrs. Stanley, accompanied by her mother, called on Marshal Murray and desired a permit to see her husband at Fort Lafayette. The Marshal stated that he had no authority in the matter, and referred the lady to Col. Martin Burke, in command of the Fort. Mrs. Stanley expressed her surprise at her husband's arrest, in view of the fact that recently, at Saratoga and elsewhere, he had maintained and expressed Union sentiments, in opposition to sympathizers with the rebels. She expressed it as her opinion, that Secretary Seward had been made the tool of the enemies of her husband.

Commissioners Over and Elliott.

PRIZE CASES—AN UNLAWFUL VOYAGE STOPPED.
The schooner Louisa Arms von

The schooner Louisa Agnes was transferred to the Prize Commissioners to-day. This vessel was seized off Cape Henry by the U.S. steamer Cambridge. She had cleared from Luneaburg, Nova-Scotia, ostensibly for Bath, Me., but an examination of her papers developed two letters, one of which contained instructions to the captain of the schooner, Robert Nicholson, from the expert Lunes A. Monne, at United States. veloped two letters, one of which contained instructions to the captain of the schooner, Robert Nicholson, from the owner, James A. Moren, of Halifax, directing him to sail to Wilmington, North Carolina, or to some port in Virginia, and upon arriving in port to sell the cargo, consisting of dried herrings and mackerel, and procure a return cargo of tar, rosin, and pitch. The other letter was addressed by Mr. Moren to J. H. Flanner, at Wilmington. It introduced Capt. Nicholson, and stated the terms on which the cargo could be sold, and the freight to be paid for the return cargo. Mr. Moren also stated that he had loaded a schooner for Wilmington in June hast, but owing to the stupidity of the captain, it went to Baltimore. The Louisa Agnes was brought to this port by the prize-master, Wm. Maies, and four of the crew of the Cambridge. Mr. Maies also brought with him the steward and cook of the Agnes. These parties are now undergoing examination before Commissioner Elliott.

The schooner Aigberth, captured of Fernandina, by the United States steamer Jamestown, has been libeled. Upon an examination of her papers it appears that she was built in South Carolina; that her former name was the Charlotte Ann; that she received a consider the captain of the British Coustley.

California Pony Express.

California Pony Express.

OUTER TRIMGRAPH STATION, PACIFIC TRIBGRAPH, \$5.7
Miles West of Fort Kearney, Sept. 6, via Umilia, N. T. and Davenport, Iowa. Sept. 10, 1861.

The California Pony Express arrived here at 6 o'clock this morning, bringing the following summary of news for the Associated Press:

Trade has been rather active than otherwise since the arrival of several clippers. Prices have been generally pretty well sustained; 1,000 boxes Thorn's Candles sold to-day at 185.c., and Clear Pork has advanced. Crushed Sugars 124c. Nails, \$4.75. Domestic Spirits of all kinds have a declining tendency. East Boston Syran. 68c.

Syrup, 60k:
Some anxiety has been felt about treasure shipments since receiving advices, via. Panama, of the proximity of the privateer Samer to the steamship route between Aspinwali and Now-York. Still the shipments by the steamer of the 1st will probably be heavy.

The enlistment of soldiers throughout the State is

heavy.

The enlistment of soldiers throughout the State is progressing satisfactorily to the military authorities.

The people generally are showing great liberality in subscribing money to aid in the work.

The excitement attending the political canvass grows more intense as election day draws nigh.

The alarm which timid people have felt lest probably the Breckinridge Democratic ticket may be elected, tends to increase the Republican strength. The probability is, however, that each of the Union tickets, the Republican and Union Democratic, will receive a larger vote than the Breckinridge ticket.

A terrible steamboat disa ter occurred on the 25th inst., on the Sacramento R.ver, above the city. The J. A. McClelland, an independent steamer running to Red Bluff, exploded, killing fifteen certainly, and probably many more of the passengers. Twelve were scalded, some of whom have since died. Among the victims are Capt. Webster, Z. Gardner, C. S. Howell, Joseph Accya, and James Morrow, of Sacramento.

D. D. Colbin has accepted the Colonelcy of the Cavalry Regiment to be raised in California.

Senator Nesmith, who arrived from Washington in the steamer on Saturday, has addressed the Union people of California, urging them to discourage party organizations and vote for the Union Domocratic candidate for Governor, otherwise, he fears that the Breckinnings party may carry the State.

The correspondent of The San Francisco Ecko, a French paper, writes from San Diego on the 15th inst. that a considerable body of emigrants, coming from Teras, have taken the route of El Paso, with the view of settling on the shores of the Pacific. Their wagons are said to be under way. This movement is said to be due to the desperate condition of Texas, consequent upon the troubles which agitate the nation.
